

Help your clients  
switch and see your  
monthly revenue in a  
whole new light!

Gas • Electric • Digital TV •  
Broadband • Telephone

**0113 307 3385**

**It's so easy to start earning additional revenue & save your clients £££s today!**

Nobody likes paying more than they need to for their essential services.

With the colder weather closing in, the recent 9.4% gas price hike by Scottish & Southern, a 7% increase in December for both gas and electric by British Gas and VAT and inflation all due to rise, many people's minds are turning towards finding the best money saving deals.

Chances are that your clients will already be contacting their service providers to notify them of their change of address, so it makes sense to offer them a FREE service to help them ensure they're getting the best possible tariffs for their new property before they do so. That's where we can help.

Assured Solutions' specialist arm, Assured Energy, has teamed up with a first class comparison and switching service provider who will contact your clients to help them compare their Gas, Electric, Broadband, Digital TV and Home Phone packages, saving them time and money in just a couple of minutes.

**It's FREE and without obligation - the benefits to you:**

- For every client who switches you will earn a commission payment from us
- Our service is **TOTALLY FREE** and includes **FREE OF CHARGE** branded promotional material with your agency colours and logo, giving your agency a unique marketing advantage that will ensure you stand out over your competitors
- Our comparison provider meets the requirements of a voluntary code of practice laid down by Consumer Focus and:
  - is not biased to any supplier
  - compares all tariffs from all suppliers
  - is accurate and up-to-date

**How does it work? It's so easy:**

1. As soon as your clients express an interest in receiving a call, simply e-mail our friendly team with the following details and we'll do the rest: **client name • purchase address • phone number • e-mail • exchange date • completion date**
2. As soon as your clients Exchange Contracts, our friendly Switch & Save Team call them to compare their current tariffs and to advise them of their total savings if they decide to switch. Don't forget - the more switched, the more you'll make
3. If your clients proceed, our provider will arrange all the switching for them - they can even switch over the phone!

**Like to get started?**

Simply contact us today on: **0113 307 3385** and we'll send you your marketing pack without delay.  
It really is that easy!
